Opera 3 SQL SE
Accelerate your business

OperaSE

Start here. Go anywhere.

When you are part of a small or medium company, you often have to be creative about getting things done. All the tasks that keep a business operational, from VAT returns and chasing debtors to managing inventory and processing customer orders, have to be completed, irrespective of the resources you have available. You need business management tools that help you do more with less, and are both easy to deploy and easy to use.

Pegasus has been providing intelligent, powerful and user-friendly business software for over 35 years. In that time, tens of thousands of companies have trusted our innovative solutions to manage their operations more efficiently so they can focus on what matters most: growing their businesses.

Opera 3 SQL SE is a solution for small and medium companies, with the power to help them aim much higher. It's designed to make managing your business simpler and dramatically more efficient. We have designed it with the everyday business needs in mind and it's built on powerful Microsoft technologies taking its efficiency and security to another level.

Invest in a solution that will continually deliver intelligent additions to its functionality. We'll help you make technology your competitive advantage.

A solution that delivers critical insights into your business, making it easier to take advantage of new opportunities and find the best way to grow.

A solution that's designed to be easily customised, because we know that every business is unique, with its own requirements and challenges.

Pick and choose the functionality required for today's challenges, knowing that your system will continue to work for you tomorrow because it can grow with you.

Opera 3 SQL SE is built on the latest Microsoft technologies. This way you know it can continue to support you well into the future.

Our nationwide network of Pegasus Partners support Opera 3 SQL SE, providing you with in-depth expertise and knowledge and the highest levels of service and technical support. They'll be your strategic business partners to make your business goals a reality.

Opera 3 SQL SE: Accelerate your business

Accelerate growth, manage complexity, and spend more time on what matters most: your customers and employees.

Make better decisions, faster

Pegasus Opera 3 SQL SE applications are designed to eliminate manual processes, integrate directly with Excel spreadsheets, and give you easy access to the information you need to steer your business. You'll dramatically reduce the time spent searching for information, and spend more time acting on it.

Deploy an integrated solution

Gain total visibility and control of your business. Manage multiple companies and multiple currencies, and access key insights and reporting that links directly to Excel, for a unified view of the business. The way that Opera 3 SQL SE delivers the required information at the right time allows for fully informed decision-making.

Fast-track your financials

Financials are the core to any business, whatever its size. With Opera 3 SQL SE you can continually track your revenues, as well as what's owed and when it's due. Equally importantly, it reminds you who you owe to, and when it has to be paid. This visibility of your cashflow will be invaluable for your profit generation.

Adapt to change

We know that every business has individual requirements and particular challenges, and that these can change over time. So with Opera 3 SQL SE, you can deploy the applications you need when you need them, and go on to expand the solution as your business grows. What's more, each application has options that allow you to tailor how your software works to your own requirements. It's all about flexibility.

We know what it's like to be in your shoes

At Pegasus, we understand the complex challenges you face. And we have a strong track record of supplying tens of thousands of businesses just like yours with innovative solutions, helping them get started, enabling them to manage change, and scaling with them as they grow.

And because one size doesn't fit all...

Opera 3 SQL SE has been designed to be totally customisable. The Pegasus Solutions Marketplace programme brings you add-on applications from accredited Pegasus Developers. We make it simple to make modifications or to add more features, to make your system perfectly match your requirements.

Opera 3 SQL SE is your one-stop shop for all the tools and resources you need to run your business.

Supported by our network of highly skilled Pegasus Partners, Opera 3 SQL SE gives you the best in delivery, implementation and support, to fit your specific needs. The result? You'll have more time to focus on the business itself.
