

## Advanced Business Cloud – Essentials Cloud-based ERP solution for SME's

**In a changing and increasingly challenging work environment, business owners are looking to technology in order to help control their business and bring all departments together without significant upfront costs.**

Using Advanced Business Cloud Essentials, you can get a single, unified view of your business - past, present and future. Simple, affordable and designed just for you.

Our solution delivers a single, fully integrated platform for businesses to use including financials, customer relationship management (CRM), stock control, supplier and operations management, sales and opportunity management, payroll and dashboard reporting. Thousands of UK SMEs trust us to help run their business for them every day. Join them and simplify your business processes today.

### **Anytime, anywhere, any device**

Access your solution in a highly secure manner, anytime and anywhere, benefiting from the most up-to-date information in all areas; from project planning to payroll management.

### **One fully integrated system**

All departments work together under one system, providing a unified view of activities and a clearer understanding of performance.

### **Flexible and scalable**

Tailor your solutions over time, as and when your needs change, so you can effectively respond to fluctuating demands, scaling your business as you need to.

### **Instant business intelligence**

Instant access to a snapshot of current and future performance, allowing you to forecast effectively, refine your strategies and plan resources and materials efficiently.

### **Full traceability**

Full history reporting around customers, suppliers, stock, operations and employees. Includes full batch traceability to manage the entire product lifecycle.
