

Advanced Exchequer eXpense365

Revolutionise student expenses and shorten your claims process by up to 35%, Exchequer eXpense365 offers unrivalled expenses management for your organisation.

The challenges

Student Unions handle thousands of expense claims each month, for clubs, societies and other volunteer activities. This places significant pressure on Finance teams to process the claims and, at the same time, maintain complete control over spending, in order to do more with an increasingly strict budget.

A lengthy claims process can also cause great challenges for student claimants whilst they await payment, as at the same time they similarly face strict budgeting and funding requirements.

The solution

Providing you with effective management of your expenses claim process, anytime, anywhere and on any device, Exchequer's eXpense365 app significantly reduces burdens on your time and budget. By seamlessly integrating with Advanced Exchequer for an effective, end-to-end financial management experience, the eXpense365 app contributes to an enhanced visibility of and insight into your spending.

eXpense365 therefore empowers you to 'do more with less' and maximise spending on the things that matter most.

The benefits

An enhanced and streamlined claims process, significantly reducing time and costs

Exchequer's eXpense365 app allows users to instantly submit expenses claims electronically and attach receipts via photo-capture technology on the move. With receipt record keeping, the app offers unrivalled expenses management, empowering users with the ability to monitor approval status and view claims history. By allowing for quick and easy authorisation of claims for timely reimbursements, and offering a streamlined claim process, the eXpense365 app significantly reduces the time and cost of expenses processing.
