

Phocas Xpress is a simple browser-based mobile business intelligence solution. It's a lighter version of Phocas Professional that enables users to view pre-defined favourites, reports and dashboards.

Master it in minutes

You'll only need 10 minutes of training to master Phocas Xpress. If you can book a flight on the internet, you can use Phocas Xpress. The solution also works beautifully on touch-screen devices, such as the iPad.

Give managers control

Managers control what Phocas Xpress users can see. That means they can restrict information, such as margin or cost data. They can also ensure reps only see their territories, or account managers only see their customers.

Collaborate better with suppliers and customers

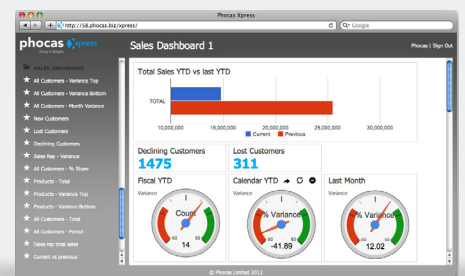

Phocas Xpress is a cost-effective way to distribute large amounts of controlled, up-to-date data to key customers and key suppliers.

Share and protect your data at the same time

Xpress is perfect for external customers because they can only see what you want them to see. It's equally good for external suppliers because it provides you with live and easily accessible snapshots of their businesses. And because it's browser based you don't need to install it for end users.

Analyse wherever you are

You can analyse any type of data in Phocas Xpress, whether it's for sales, purchasing, inventory, finance or other areas of the business. And because it's browser based, you can analyse it anywhere.

Name	Database	Group	Owner
1. All Customers - % Share	Sales USA	Personal	Phocas
2. All Customers - % Sales	Sales USA	Sales Dashboard	Phocas
3. All Customers - Month Variance	Sales USA	Personal	Phocas
4. All Customers - Month Variance	Sales USA	Sales Dashboard	Phocas
5. All Customers - Period	Sales USA	Personal	Phocas
6. All Customers - Period	Sales USA	Sales Dashboard	Phocas
7. All Customers - Total	Sales USA	Personal	Phocas
8. All Customers - Total	Sales USA	Sales Dashboard	Phocas
9. All Customers - Variance Bottom	Sales USA	Personal	Phocas
10. All Customers - Variance Bottom	Sales USA	Sales Dashboard	Phocas
11. All Customers - Variance Top	Sales USA	Personal	Phocas
12. All Customers - Variance Top	Sales USA	Sales Dashboard	Phocas
13. Company Price - Period	Sales USA	Personal	Phocas
14. Company Price - Period	Sales USA	Personal	Phocas
15. Current in previous	Sales USA	Sales Dashboard	Phocas
16. Current in previous	Sales USA	Sales Dashboard	Phocas

Choose Phocas if you want to:

- Get to the bottom of your company data with ease and discover opportunities you might otherwise miss
- Work with software specifically designed for manufacturers, distributors and retailers
- Simplify your business intelligence. Even technophobes find our software simple to install, deploy and use
- Rent software and keep your CFO happy with little capital investment and just a small monthly fee
- Get up and running quickly – we're the fastest to implement, according to the world's largest BI survey, BARC

What can you do with Phocas Express?

Xpress users can only view what someone else has created for them. That could be reports, analysis, dashboards, or any combination of the three.

However, users can also perform powerful analysis within the boundaries of what has been pre-defined. They can slice and dice, choose period ranges, and export to Excel and PDF.

Xpress users can't create or save analysis, reports, or dashboards.

How does Phocas Xpress work?

Create a favourite, dashboard or report in the usual way with Phocas Professional or Phocas Dashboards and Reports. Then publish it to a favourite group. Xpress users with permission to access that favourite group will automatically see the new favourite, dashboard or report next time they log on. There are no new skills to learn, which makes it incredibly simple.

This bit's for IT

Phocas Xpress is an end-user tool that we provide on a per-user named licence. You'll also need Phocas Enterprise, which is the back-end tool for the Phocas Suite and at least one seat of Phocas Professional. Phocas Xpress is browser based, so you won't need to install software.

System Requirements

- Internet Information Systems (IIS) 6 (and above)
- We recommend IE 8+. Phocas Express also supports Chrome, Safari and Firefox on either Mac or PC.
- .Net 2 Framework
- Phocas Enterprise (v5.7 or above)
- Phocas Professional (v5.7 or above)

Our award-winning business intelligence software is primarily designed for manufacturing, distribution and retail companies – anyone who sells a wide range of products to a varied customer base. Most of our users are in sales and marketing, management, finance, purchasing and IT.
